CLOUD SERVICES

Deploy highly-available, infinitely-scalable applications and APIs using Microsoft Azure Services

REALIZE THE ADVANTAGES OF MICROSOFT AZURE SOLUTIONS FOR YOUR ON DEMAND BUSINESS

Microsoft Azure is an open and flexible cloud platform that helps you in various stages of web development such as fast creation, installation and management of applications extending the services across the global network of Microsoft-managed datacenters. With Microsoft Azure you get multiple features such as those used for development, data storing, service hosting and service management environment. You also get on-demand compute and storage to host across the global network. With the help of azure, your focus on infrastructure can be lessened and you can acclaim top grade cloud computing service.

Being a Microsoft Product Solutions company our team has been providing Azure Cloud Computing services to clients across various platforms and has developed complete understanding of the system and its requirements to fulfill the needs of the clients. It all comes from years of working together as a team on various Azure Development projects and continually improvising towards the most advanced techniques accessible.

Having worked on the Microsoft Windows Azure platform right since its inception, Oakridge Infotech brings you solutions across both PaaS and IaaS for hosting cloud applications. With strong Microsoft Competency, we leverage on our strong relationship with Microsoft, to offer a comprehensive portfolio of offerings. These help you rapidly move your existing applications, as well as deploy new applications, on the Windows Azure cloud platform, in an optimal and efficient manner.

Our service offerings on Windows Azure platform are complemented with a host of Tools, Accelerators and Industry Solutions that help maximize returns from movement of applications to the cloud.

The team from our dedicated Center of Excellence (CoE) on Microsoft Windows Azure works closely with you to define a Windows Azure adoption roadmap. Through our services on Windows Azure Platform you can:

- ▶ Adopt the Windows Azure Platform with reduced risks of transition
- ▶ Accelerate the deployment of applications on the cloud
- ▶ Experience value from our insights on your Windows Azure Platform roadmap
- ▶ Timely, and high-quality delivery of services across the globe
Utilize the CMM(I) Level 5 quality and audit process

OUR SERVICE OFFERING

Oakridge Infotech brings highly scalable services and solutions that comprise end-to-end services. We help you choose the solution and migrate to the cloud by assessing the existing landscape. We then assist in the final deployment and management of applications and solutions. All this, is delivered through a host of services and solutions such as:

Cloud Advisory Services

Our thorough application portfolio analysis ensures that a detailed Azure adoption plan is derived.

SaaS Conversion for ISVs We enable the conversion of your standalone applications to cloud-based SaaS offerings through a detailed analysis of the applications and its licensing model.

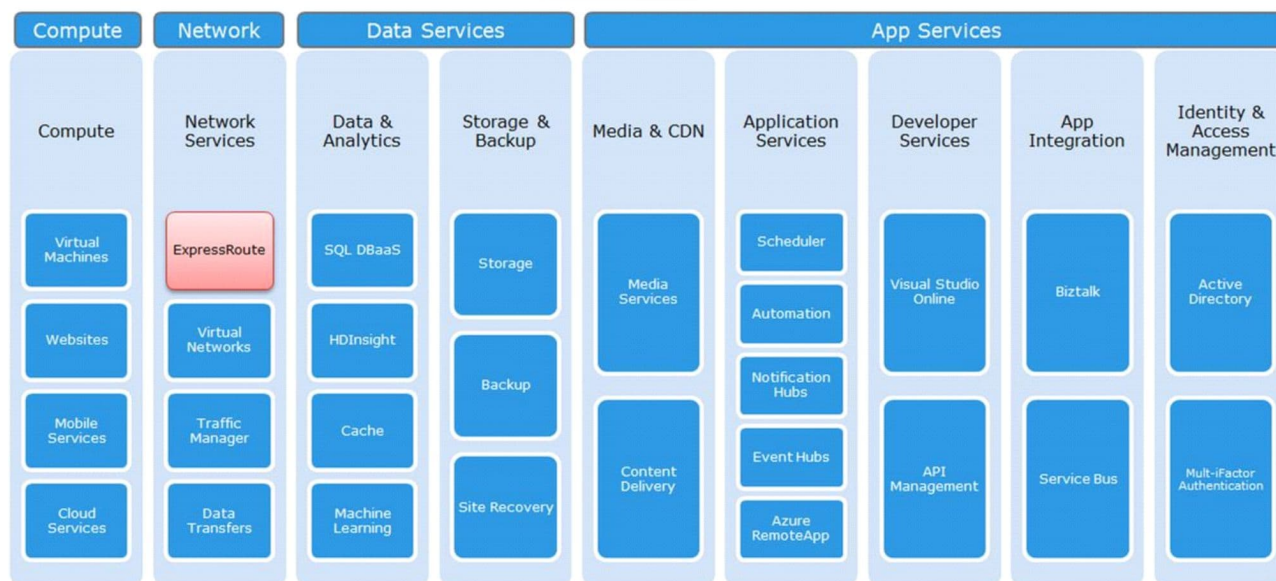

Cloud Migration and Development Services, We develop and ensure seamless migration of applications and database to the Azure platform. Further, we ensure efficient development productivity through solution accelerators.

Oakridge Infotech provides an array of offerings and services that help customers utilize the Windows Azure platform to deploy new applications at a reduced risk and cost, while also ensuring new revenue generation.

- ▶ A strong partner alliance with Microsoft, with defined go-to-market initiatives around Windows Azure
- ▶ Industry solutions and accelerators, a reusable component library, and productivity enablers in form of tools
- ▶ Proven competency in Windows Azure, which includes areas such as architecture, design, development, and testing applications on the cloud

Azure Performance Engineering Services

We provide detailed performance statistics and recommend changes based on it to improve performance
